

REMARKS

The Examiner has indicated that Claims 2-6 would be allowable if rewritten. Amended claim 2 now includes the limitation of original claim 1 and is now in allowable form. Claims 3-6 are dependent from allowable claim 2.

Further, the Examiner has noted that the drawings required correction. An amended Figure 2 is provided for the Examiner's consideration. The side surface 18 is designated. The lower connector 16 has been re-numbered. The slots 30 and 31 have been corrected.

Amended claim 2 has been amended to place —a— before the word "vertical slot," thereby providing proper antecedent basis and avoid the Examiner's 112, second paragraph objection.

Claim 1 has been canceled to avoid the § 103(a) rejection basis.

The Applicant asks the Examiner to reconsider the amended specification and claims and issue a Notice of Allowance.

Respectfully submitted,

JACKSON WALKER L.L.P.
